

NEWPORT.

BY CRANSTON & NORMAN,
127 THAMES STREET.

THURSDAY MORNING, OCT. 16, 1881.

WE published a communication yesterday in regard to the suffering condition of several families in the south part of the town; in it the writer stated that these people were out of employment in consequence of the stoppage of the factories. This is but the merest fractional portion of the suffering which has occurred, and which must still continue to occur, in consequence of so large a number of operatives, particularly in New England, being deprived of their daily labor, by the closing of the factories. And what is the cause of it all, and what has brought all this distress upon an industrious and hard-working portion of the community, who are entirely dependent, for their livelihood, upon the successful operation of Manufactures, in this country? Why, the suicidal and abominable Free-trade doctrine of the locofoco party.—Just so long as we are cursed with locofoco doctrines, in all the practical operations of business,—just so long as we are compelled to struggle on under a low tariff, and to contend with the pauper labor of Great Britain,—just so long must the Manufacturers of this country be cramped, and the operatives be oppressed. Cotton can be sent from this country, be manufactured and printed in England, and brought to our market, and after paying all the expenses, together with the import duty, can be sold at a considerably less price than what the same goods can be furnished for by our own Manufacturers. And the reason is perfectly obvious to every one.—In England they have brought much of their machinery to a far greater perfection than we have in this country,—consequently they are enabled to make better goods at less expense, and in less time, than can be done here. And, in the next place, there is no such degrading oppression on earth as that which is suffered by the operatives in the Manufacturing districts of England. They work more hours in a day, and receive less pay per week than our operatives, for precisely the same work, receive per day,—and thus England is enabled more successfully to compete with our Manufacturers,—and even make money by the operation. Yet the locofocos persist in their ruinous system of free-trade; they pursue this course, notwithstanding they are perfectly aware that they are grinding the poor operatives to the bone. Keep their factories in operation, for it would be ruinous to them, and, therefore, the operators are thrown out of employment. Yet these very locofocos profess to be ardent friends of the poor; it is strange to us that every laboring man in the country does not comprehend this matter, and vote against the locofoco doctrines, and thus secure his own welfare and happiness, and that of his family also. American labor should be amply protected, and receive a full and just reward. Until this is done, there will always be great distress among the laboring portion of our countrymen; and this cannot be done until the free-men vote down the locofoco doctrines of Free-trade and low tariff. When will poor people open their eyes, on this subject, and vote in favor of guarding their own interests?

WE call attention to the advertisement of Dr. Wood, in another column, of his Musical Class, at the Unitarian Chapel. Dr. Wood is a thorough musician, and possesses a wonderful faculty, to impart his knowledge, and to discipline the mind in these matters.—We advise all who wish to become good singers, to join the Class immediately.

WE learn by Telegraph that the steamer Atlantic arrived at New York, yesterday morning, at 7 o'clock.

CONSUL AT HAVANA.—It is understood that C. C. Langdon, Esq., editor of Mobile Advertiser, and now Mayor of that city, has been appointed Consul at Havana, since Owen removed. Mr. Langdon is an energetic whig.

THE New Haven Journal cautions the public to beware of bills purporting to be of the Chatham Bank, Norwich, Conn., as there is no such bank.

MARKING NEWSPAPERS.—The Postmaster General has decided that it is lawful for publishers of newspapers, or others, "to draw a mark over an advertisement for the purpose of directing attention to it."

An Irishman, a few days since, got a family Bible, and taking it home made his first record as follows:—"Patrick D., born Sept. 20, 1846, aged 35 years."

COMMODORE LEWIS WARRINGTON, of the U. S. ARMY.—This officer died at Washington on Sunday morning last, after a protracted illness, during which he suffered considerably. Commodore Warrington entered the Navy, as a Midshipman, on the 6th of January, 1800, and received the commission he held at his death on the 22d of November, 1814. His name will go down to posterity as a hero of that war which satisfied Great Britain that she did not hold the supremacy of the seas. He commanded the Peacock when she so gallantly captured the Esmeralda.

At his death, Commodore Warrington stood three on the Navy list, being preceded by Commodores Stewart and Morris, and was the Chief of the Bureau of Ordnance and Hydrography, to which he was appointed on the 25th of May 1843. He leaves two sons in the service, one a Purser, who entered on the 13th of September, 1841, and the other a Passed Midshipman, who entered on the 20th of January, 1839, and received his warrant on the 20th of May, 1844.

During the last twenty-five years Commodore Warrington has not been in actual service, but has been employed on shore duty all that time. He was in the Navy nearly fifty-two years, and performed service at sea over twenty-one years. It is the intention of the Navy Department to order all the usual marks of respect for his memory.

MARGARET GARRITY.—After this person had been acquitted of the murder of Edward Drum, on the ground of insanity, as we learn from the Newark Advertiser, the Court appointed a committee of six physicians to examine the prisoner, and report whether she was insane, for the purpose of ascertaining under the statute whether she should be sent to the lunatic asylum, or discharged.—The committee reported that they find at present no evidence of unsound mind, and the Court concurring in that opinion, the prisoner was released from custody.

SARA FLINT, from New-York, via Newport, for Bahia, before reported at Macao with a mutinous crew, &c., is the vessel which put into Port Praya, Cape Verde Islands, July 20, in distress, having proceeded as far as lat. 3° 20' N., long. 30°, when her course was altered for Port Praya. The captain and supercargo left the vessel on account of some misunderstanding with the owner, Mr. W. Gibson, who was on board as a passenger. Capt. Townsend took passage in a Portuguese schooner for St. Vincent, whence he intended to proceed home via England.

PEETERS SINGER.—A peeters singer will soon recommence her delightful concerts. She will give the first of the new series at Buffalo. The Montreal Herald says that she will certainly visit Toronto, where the Parliament House will be fitted up for her use. It will hold 1850 persons. The Herald is wicked enough to say that this will be the best use the House has been put to for a long time past.

OXYGENATED BITTERS.—For the cure of Dyspepsia, Asthma and General Debility, this medicine is invaluable: its peculiar combination is the result of experience, and an intimate knowledge of the cause of these diseases, and the certainties of remarkable cures are sufficient proof of its superiority over all other remedies known.

ROMANCE IN REAL LIFE.—"Married at Rosneath, in Halifax County, on Sunday night, 7th instant, by James Jones, Esq., Mr. Richard Williamson, of Missouri, to Mrs. Martha L. Savage."

The above may be regarded as one of those romantic matrimonial cases which of late appear to be of frequent occurrence; and perhaps it may not be amiss to give a few of the particulars attending it, as they have been related to us. Mr. Williamson is represented to be a very wealthy old gentleman, living in the extreme western part of Missouri. In traveling about for health and recreation, accompanied by a nephew, he stopped a few weeks since at the well known hospitable house of our old friend, Moses Smith, Esq., who, happening to be absent—a rare occurrence with him—Mrs. Savage, a niece of his wife, came to the door to receive the new comers; she also waited upon them at table, and won their good opinions so rapidly, that the nephew declared himself enraptured with her, and expressed a determination to carry her back with him to Missouri, on their return, if he could prevail upon her to accompany them. The uncle, entertaining the same opinion, the nephew prudently gave way, and the old gentleman proposed. The lady hesitated, and required time for deliberation. They proceeded to the Virginia Springs, and on their return, the old gentleman, with palpitating heart, awaited the final decision of the lady.—He was informed that she was a widow, with four "responsibilities," which was all she possessed. He said he was rich enough for them all, and finally the marriage came off, and they have all started for the far West. My happiness and success attend them.

AN APPROPRIATE SIGN.—A man who had established a tipping house, being about to erect his sign, requested his neighbors advice in regard to an inscription for it. His friend replied, "I advise you to write on your signboards and Beggars made here."

BY TELEGRAPH.

Ohio Election.

New York, Oct. 14.
With respect to the Ohio election, we learn from Cincinnati that everything passed off quietly there, but the result will not be arrived at till to-morrow.—There are four tickets in the field. Very few returns from the State at large are looked for before to-morrow.

Toledo.—Wood's majority 105. Whig Senator elected in the District of Summit and Portage.
Columbus.—In five townships heard from the Democratic ticket is elected, and Wood's majority for Governor is from 100 to 200. Franklin county.—Partial returns indicate the election of the Democratic ticket, Wood's majority 100 to 200.—Greene county.—Partial returns indicate a greatly reduced majority for the Whig Governor and the Whig county ticket.

Cleveland.—Large vote; result doubtful; cannot be ascertained till to-morrow; chances in favor of the Democrats. Huron county gives a Whig majority. The whole ticket is elected.
Gen. Lane addressed a mass meeting of Democrats last night.

Philadelphia Election.

PHILADELPHIA, Oct. 14.
Schuylkill Co., in 9 districts, shows a loss on the Whig vote of 1848 of 840.—Johnston's majority in the borough of Pottsville is 282. Northampton Co.—Bigler's majority in the borough and township of Easton is 290. Columbia Co.—Johnston's majority in the borough of Danville is 57. Luzerne Co.—Johnston's majority in the borough of Wilkesbarre is 31; Bigler's majority in the township, 66.—Democratic gain in both, 230. Lehigh Co.—In the borough of Allentown Johnston has 9 majority. In Honesdale, Bigler has a majority of 63; Hubbell, Representative, 70. Texas, Bigler 141 majority; Glover, Canal Commissioner, 148. Susquehanna Co.—Montrose, Johnston 41 majority; Strohm, Canal Commissioner, 51; Jessup, for Supreme Court, 63. Bridge-water, Bigler 94. Silver Lake, Bigler 13. Luzerne Co.—Carbondale city and township, Bigler 267. Fell township, Bigler 52. Pittsburgh.—Bigler's majority in 15 districts over Johnston's former majority, 337.

Philadelphia Co., (in part), gives Bigler 783 majority; Southwark, 329 for Johnston; Richmond, 452 for Bigler and 256 for Johnston, being a gain for Johnston of 105, compared with the vote of 1848. In the Northern Liberties, Bigler has 11,000 majority. In Schuylkill Co. Bigler's majority is about 350. In three towns in Lycoming Co. Bigler's majority is 189. Lehigh, complete, gives Bigler 370 majority; the whole Democratic ticket is elected.

Montgomery Co. gives Bigler a majority of about 700. In Dauphin Co. Johnston's majority will probably reach 1200. In York Co. Bigler's majority is about 1000. In Columbia Co. sufficient has been heard from to show a majority for Bigler of about 700. Passayunk gives 70 majority for Johnston. In Philadelphia city, 7 wards give Gilpin, regular Whig, for Mayor, 4000. He will be elected by about 5000. Lancaster Co. gives 4950 for Johnston, and Berks 5500.

Philadelphia Co.—Spring Garden gives 640 majority for Johnston. Northampton Co., as far as heard from, gives Bigler 1490 majority, and in Luzerne Co., in 7 townships, his gain over the vote of 1848 is 253. Johnston's majority in Allegheny Co. is 1476. In Erie city 50, a gain of 200. His majority in the county is about 1000.

Carbon Co. complete gives 550 majority for Bigler, Schuylkill Co. 700, a gain of 1200. Northumberland, Bigler 900. Clinton Co., Bigler 250. Dauphin Co., two thirds heard from, gives Johnston over 1100 majority.

The Democratic county ticket is elected. Complete returns of Philadelphia city give Gilpin, regular Whig, for Mayor 5178 majority.

Oct. 15th, 3 o'clock, P. M.—In Luzerne Co. Bigler has about 1100 majority. Lycoming, Bigler 400. Kenington, Philadelphia Co., 800 for Bigler.—Montgomery Co., Bigler from 1000 to 1200. Columbia Co., 900 for Bigler.—Seven districts of Mifflin Co., give 700 for Bigler.

Bigler's majority in Philadelphia Co. is 2150. Johnston's majority in the city 2700.

GREAT MORTALITY.—It is stated that one day last week, seven of the Esquimaux dogs on board of the exploring vessels, died, and the other two are not expected to live. The difference in climate is, no doubt, the cause of the mortality.

INDIGENOUS ROBBERY BY THE USE OF CHLOROFORM.—The rogues and adept thieves, who promulgate about this big city for the purpose of committing depredations of all grades, have long ago adopted almost every means of aiding them in the perpetration of robberies, but the following will give our readers the particulars of a new mode of robbery, which was successfully carried out by the shrewd thief. It appeared Sunday morning, between the hours of two and three o'clock, while three men by the names of Richard Leavitt, Josiah Paul, and Bland French were asleep on board of the Brig Edie, lying at Pier No. 10 East River, some daring rogues or rogues, forcibly entered the cabin of said vessel, and after opening their dark lantern, the above individuals were observed lying in their berths with their eyes closed, and soundly in the arms of Morpheus, whereupon the villains applied the stopper part of a vial of Chloroform to the nostrils of each person for a sufficient length of time to allow them to inhale the requisite quantity of said drug, which had the desired effect, and when the victims of these ingenious robbers awoke, they discovered the cab-

in had been ransacked and plundered of a valuable gold watch and chain, all their wearing apparel, and wallets, containing about \$30 in Bank bills, with which the rascals made their escape and have not since been heard of. The above case is a new feature in the history of crime, and we will not be surprised in future, to hear of other robberies being committed by still more ingenious operations.—N. Y. Times.

A CLAIRVOYANT PROPHECY ABOUT SIR JOHN FRANKLIN.—In turning over the exchange papers this morning, our eyes fell upon the following paragraph, which purports to have been cut from a paper called the Edinburgh Advertiser, but of what date it is not said:
"On the 17th of February last, a clairvoyant, whose revelations are given in Dr. Gregory's late work, stated that Captain Austin was at that moment in longitude 95 deg. 45 min. west, which corresponds exactly with the actual position of the place where he is now found to have passed the Winter. According to her statement, Sir John Franklin was at the same time in lon. 101 deg. 45 min., or about 400 miles to the westward; and he had been previously relieved, and a third ship was then frozen up along with his two."

Happening to have the work of Dr. Gregory which is here alluded to, on our table, we turned to it, and found sure enough that on page 306 of the American edition, it is stated that a female in the magnetic state, while examining certain letters said to have been written by Sir John Franklin and Captain Austin, declared that they were at that moment (Feb. 17th, 1851,) in the longitude above given. The book itself was published several months since, and long before the return of Captain Austin's expedition.

We next turned to our files of the London Times, and found the report of Captain Austin published at length in that paper of September 12th, stating, in the course of it, that, from the 14th February, 1851, until after the 18th, "he was fast to the fixed ice, between Cape Martyr and Griffith Island." Now, this point, according to our rude measurements, on Johnson's map of the Arctic Zones, is just about 95 45, west longitude, from Greenwich.

Here, then, we have a prophecy giving precise numbers, and distinctly recorded previous to the time when any knowledge of the event referred to could have been had, and which turns out to be quite correct. Clairvoyance, which has been getting somewhat into disrepute, it has never before had—that we are aware of—so decided and signal a success.—Evening Post.

MARRIED.

In Providence, 7th inst., Mr. George H. Barnes, of Cincinnati, N. Y., to Miss Harriet E. Mowry, of Pawtucket.

DIED.

In Providence, 14th inst., Miss Anna, daughter of Henry G. and Mary B. Mumford, aged 27 years.
